SECTION B (40 MARKS)

INSTRUCTION:
This section consists of FIVE (5) structured questions. Write your answers in the answer booklet provided.

QUESTION 1
Read the following book review and complete the table that follows.

The book, ‘The Life of Mahatma Gandhi’ is written by Louis Fischer and has been hailed as the best biography of Gandhi. It narrates the life of Gandhi who led the fight for India’s independence from British rule and the many issues that led to his assassination by a Hindu fanatic a few months after freedom was won.

The biography shows Gandhi as a great human being – a leader who was gentle, conscientious and honest. He stood for righteousness. Gandhi gave up all his desires and sacrificed his life for the sake of the country. He went through many fasts, demonstrated against colonial powers in a peaceful manner and went to jail so that his country could be free.

Reading the book, reminds me of what Einstein said of Gandhi. ‘Generations to come will scarce believe that such a person ever walked in flash and blood upon this earth.’

It is a real pleasure to read about Gandhi. This book is very relevant in today’s world of corruption and greed. It is a must-read for those interested in reading biographies.

QUESTION 3

Read the description below and answer the questions that follow.

CANCER (June 22 to July 22)

Deeply intuitive and sentimental, Cancer can be one of the most challenging Zodiac signs to get to know. Cancer is very emotional and sensitive, and they care about family and home. Cancer is sympathetic and is very attached to the people who surround him. People born under the Cancer sign are very loyal and empathetic people, able to empathize with your pain and suffering.

Because of the ruling planet the Moon, the many phases of its lunar cycle can deepen Cancers internal mysteries and create fleeting emotional patterns that the sensitive Cancer cannot control, especially when a child. This can show itself as mood swings, selfishness, manipulation and fits of rage. Cancer is quick to help others and avoid conflicts. One of his greatest strengths is persistent determination. Cancer doesn't have great ambitions, because they are happy and content to have a loving family and tranquil and harmonious home. They often take good care of their co-workers and treat them as family.
